He determined to buy your Indian Vegetable Pills, and by using one box, is now sound and well. Mr. T. Spencer had a daughter. Mr. Hugh Groves, a son, and Mr. Charles Nichols and three of his family, were all down at the same time with fever and ague, and had also tried the various other remedies without effect. Your Indian Vegetable Pills soon restored them all to perfect health. I can assure you, from what I have seen, your Indian Vegetable Pills may be relied on for a perfect cure of Fover and Ague.

FORT WAYNE, Indiana, Saturday, September 30, 1843.

"O wad some power the giftie gie us 💰 To see oursel's as others see us. From mony a blunder it would free us,

CHIE Firm of Samuel Hanna & Sons was dissolved in July last. This is to give notice to all concerned, that the notes and accounts An' foolish notion." So sang Rabbie Burns many a long year ago; and we now give the whig party-that is, those who have been in the habit of declaiming against slavery and slaveholders, northern doughfaces, and all that sort of thing, and yet contemplate voting for General Taylor-s chance to see themselves as others see them. We hope it may free them from mony a blunder," especially the "foolish notion" that they can consistently vote for a man who owns 283 slaves, and who was forced on them by southern dictation as the champion of southern interests, as their candidate for President.

We are indebted to friend Ellis, of the Goshen Democrat, for the loan of the spirited and life-like engraving which we give below. It is calculated to show the northern anti-slavery Taylor men the light in which they are viewed by others, and as such, it may, in the language of the poet, if they only profit by the "giftie," free them from "mony a blunder" "an' foolish notion." So mote it be.

From the Goshen I emocrat. EXPLANATION OF THE PLATE.

That little fellow on the left is designed to represent a Northern Whig-Abolition-Free Soil—Wilmot Proviso—no more slave territory Doughface, in the act of swallowing Zachary Taylor and all his niggers. He has already taken down the Caba Bloodhounds, and there is nothing left of Old Rough and Ready himself but his boots. You will perceive that the monstrous load occasions quite a protrusion of the abominable regions, but we are inclined to think he will get them all down. The darkies seem to enjoy the fun amazingly, and will probably slide down as easy as easy as Massa Zack.

#### MORAL.

When you hear a man declaiming long and loud against the institution of Slavery-denouncing the South as foes to liberty-arguing like a minister for Free Soil and no more Slave Territory-and swearing like a trooper that he will never vote for a slave holder, or for any man opposed to the Wilmot Proviso, set him down as the very coon that will vote for Zachary Taylor, and ten to one you will find the old general's boots sticking in his

## Important to Farmers. HORSE MILL

For Grinding Corn and Cob, Apples Vegetables of every description. P. FLETCHER informs the farmers of Allen and the aeighboring counties that he is appointed agent for the

Ware's Vegetable Grinder. and has one now in operation at his residence, one mile eas of Fort Wayne, where any person is at liberty to grind load of Corn or Vegetables, and test its usefulness. He he the patterns on hand, and can fill all orders on short notice nd at a very reasonable price.

This mill is made of Cast Iron, is extremely simple in it

and at a very reasonable price.

This mill is made of Cast Iron, is extremely simple in it construction, durable, no. hable to get out of repair, portable and may be used with one or two horses. It will grind from seven to eight bushels of shelled corn and outs per hour, at the that one half of it will pass through a common measeirs, or from seven to ten bushels of corn in the car; on tri al we find that one and a half bushels of ears will make two bushels when ground, and one bushel of this chop will fatten eattle, horses, &c.. as fast as two bushels will make two bushels when ground, and one bushel of this chop will fatten eattle, horses, &c.. as fast as two bushels deers fed in the ordinary manner. If geared so as to increase the speed to thirty-five or forty re-olutions per minute, and attached to steam or water power, it may be made to de five or six times this amount of work. It will grind from forty to fitly bushels of Apples, Potatoes, Tarnips, Boets, or other Roots per hour, while the draught is light for one horse working at the end of a short sweep. The advantage and economy of using chop per food is so well known to all good farmers, and it is sestrongly recommended by all Agricultural Papers, that it is needless to dwell on it here.

Numerous certificates of the great value and usefulness of this mill could be published, from among which the following contents.
